WELCOME TO OUR CATALOGUE

Welcome to Hanhaa Supply Chain Solutions 2022 Product catalog, innovating and providing tracking solutions for all use cases. Choose from a selection of 7 different trackers, from our flagship product ParceLive, to asset tracking, solar tracking and cloud-based tracking solutions.

Giving customers the ability to customize all of their devices to their specific needs. This includes access to the online web portal, return logistics, Telematics and block-chain integration. All of our products offer users access to our online web portal that gives you unlimited transparency to your in-transit assets.

At Hanhaa SCS we have been committed to working with our customers to create a sustainable supply chain since our inception in 2015. We believe that advanced monitoring plays a pivotal role in a company's ability to reduce: usage of non-renewable resources, carbon emissions and e-waste.

PARCELIVE

Parcelive, is a real-time, multimodal cargo tracking service that connects users to live information about the location, condition and security of their assets regardless of their country, carrier or scale. The ultimate product in supply chain solutions.

The data-driven service holds particular relevance for the 3PL industry, for those shipping fragile components such as auto parts or electronics, as well as for the temperature-controlled supply chain.

REUSABLE TRACKER MULTIMODodal

Parcelive is the first cargo tracker to take the fight against e-waste seriously. Due to its reusable model, after each journey the devices are returned to one of our fulfilment centres where they are refreshed, recharged and reused ready for their next journey.

Blockchain and Telematics Integration

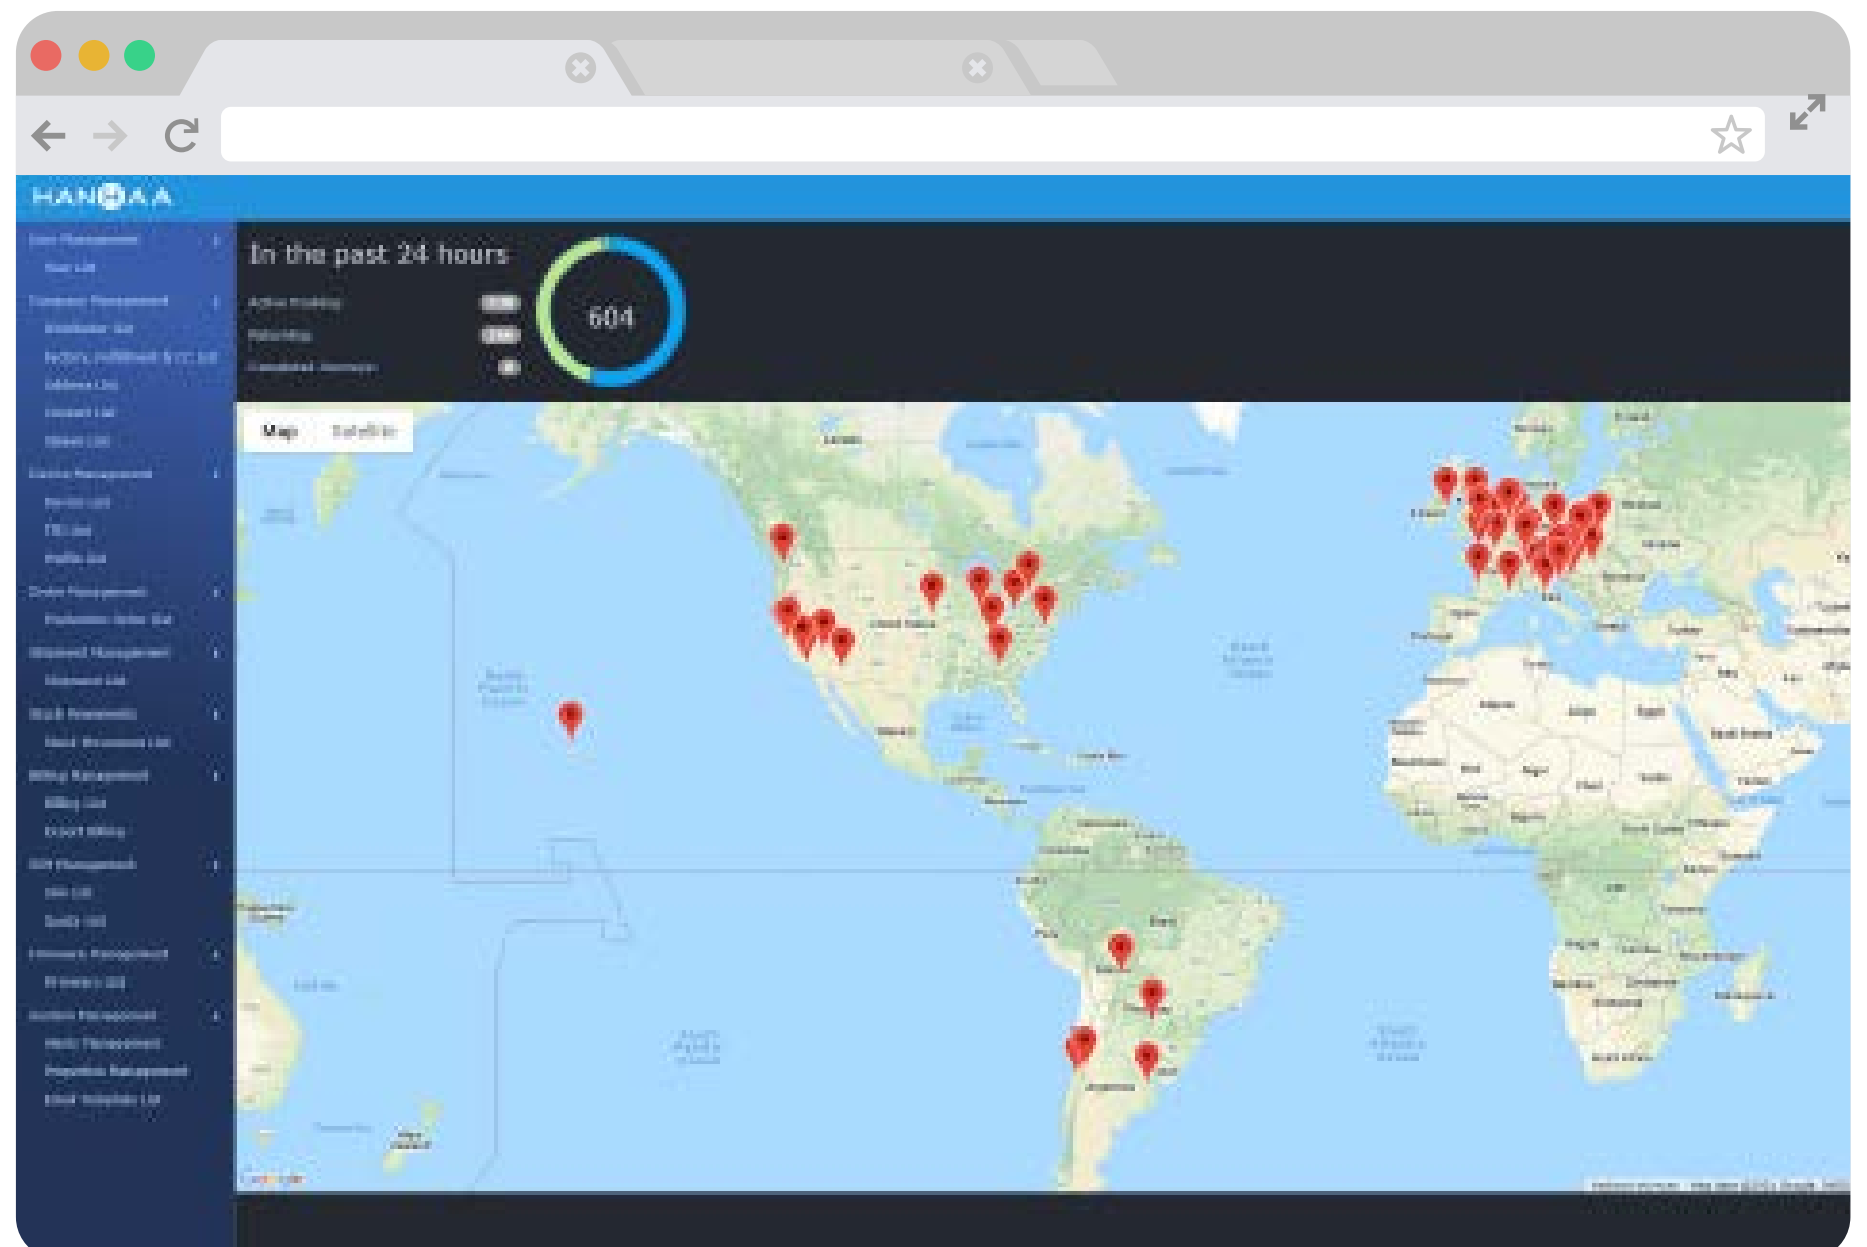

Exclusive Branded Sleeves

WEB PORTAL

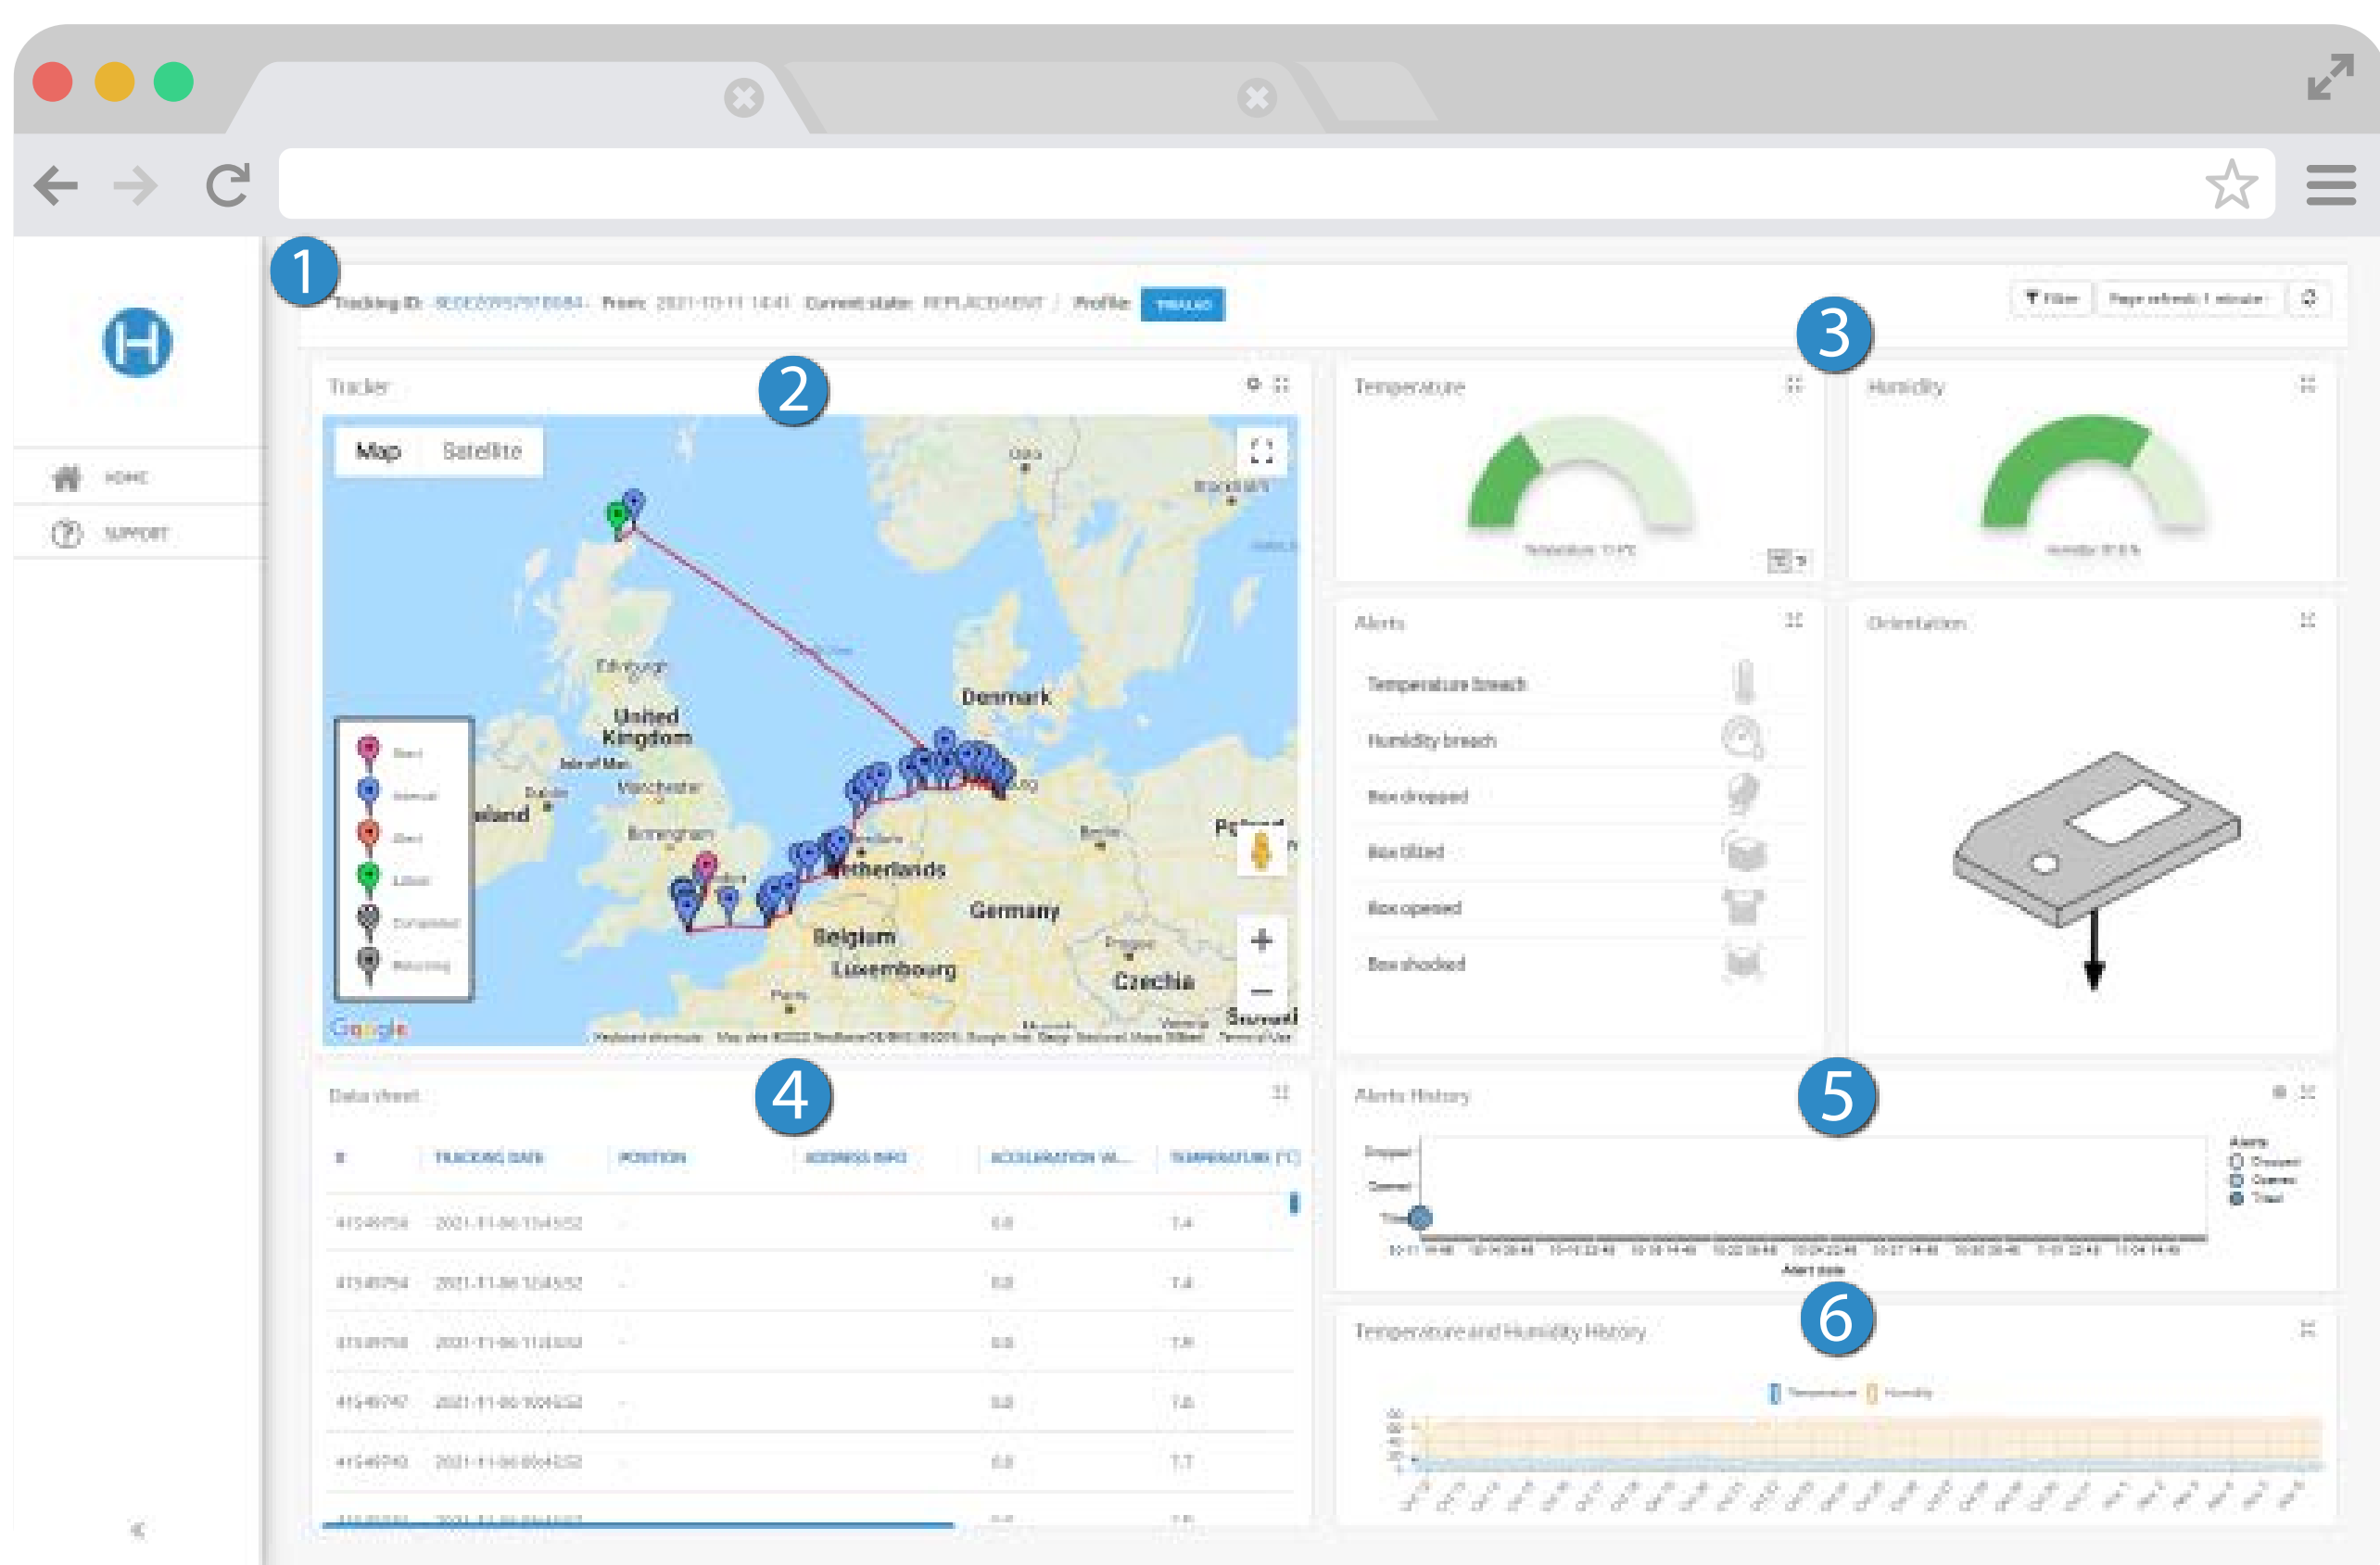

Fleet View

The ParcelLive web portal gives customers unlimited transparency to their in-transit assets.

The portal can be white labelled in your company branding or the data can be sent directly into your internal systems via integrated APIs.

COMPANY
BRANDING

Exclusive
Branding

The protective covers for our ParcelLive and trackers can be branded with your company's branding/logo to earn greater appreciation with your customers. All custom made and created specifically for your brand.

If you wish to make use of this service, the cost for production and separate handling of these unique covers will also need to be factored in.
